Education

Guru Gobind Singh Indraprastha University

B.Tech in Computer Science

Aug 2024 – June 2028

Delhi

Experience

Full Stack Developer Intern

Vizuara Technologies

- Collaborated with engineering, product, and research teams to develop and maintain AI-powered platforms for education and research applications.
- Contributed to full-stack feature development using React (frontend), Node.js/Express (backend), and MongoDB, including API integrations and database schema design.
- Implement, debug, and test code while gaining hands-on experience in scalable system architecture, real-time features, and agile development practices.

Professional Summary

- Full-Stack MERN Developer skilled in building responsive, scalable web applications with React.js, Node.js, Express.js, and MongoDB.
- Experienced in real-time features (WebRTC, Socket.IO), REST APIs, cloud deployment, Git workflows, and UI/UX best practices.
- Passionate about AI-driven solutions and process automation; proven through hackathon finalist achievements, leadership in full-stack projects, and eagerness to deliver high-impact features in fast-paced teams.

Projects

Video Calling App | *React.js, WebRTC, Socket.IO, Node.js, Render* | [Live Demo](#) | [GitHub](#)

October 2025

- Developed full-stack real-time video conferencing platform leveraging WebRTC for peer-to-peer streaming and Socket.IO for efficient signaling and low-latency communication.
- Implemented secure JWT authentication, MongoDB meeting history storage, and responsive React UI with chat, screen-sharing, improving simulated user collaboration by 40%.

Resumind – ATS Resume Analyzer | *React, TypeScript, Puter.js* | [Live Demo](#) | [GitHub](#)

January 2026

- Created ATS optimization tool that evaluates resumes for keyword relevance, formatting, structure, and provides compatibility score + detailed improvement suggestions.
- Enhanced client-side performance with modular TypeScript code, efficient parsing, and responsive design for seamless user experience.

Technical Skills

Languages: JavaScript, Python, C/C++, HTML, CSS, SQL

Frontend/Backend: React.js, Node.js, Express.js, Material UI, REST APIs, WebRTC, Socket.IO, Axios

Databases & Security: MongoDB, SQL, JWT, bcrypt

Concepts & Design: Data Structures & Algorithms, Object-Oriented Programming (OOP/OOPS), System Design

Tools & Platforms: Git/GitHub, Vercel, Render, Netlify, Postman, VS Code, Docker

Achievements

Hackathon Finalist

T-Hacks 8.0

Best Web Dev Team

- Led frontend development and contributed full-stack architecture to institution-wide digital platform using React + Material UI, streamlining operations for 500+ users.
